

How to Deal with Coronavirus

RESUME COURSE

DETAILS ▾

lawpilots 

About The Project

When Coronavirus broke and companies were forced to implement safety procedures for employees almost overnight, German based lawpilots saw a need for online training that could help its corporate clients. Their in-house team of content creators already had a full production schedule, so lawpilots enlisted the help of The URL Dr, through Upwork.

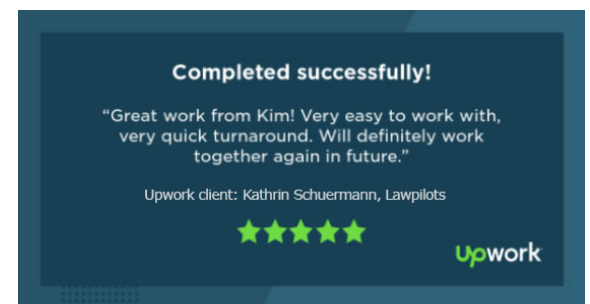

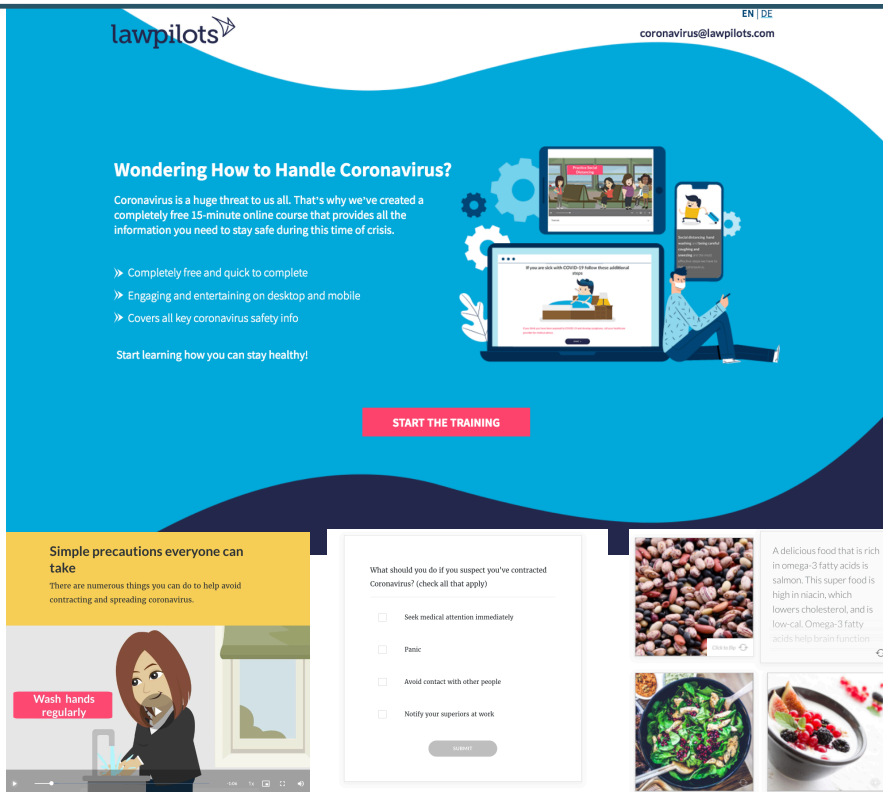

The URL Dr designed a Coronavirus safety course in Articulate Rise 360 utilizing a combination of learning elements to make this serious subject interactive and fun. Vyond animation with flashcard grids, labeled graphics, and accordion elements was used. Quizzes and matching activities test learning comprehension. The URL Dr. met a very short delivery time to get the course out fast.

Objectives

- ✓ Edit legal content in an entertaining way for an e-learning course on Coronavirus safety
- ✓ Course content should be simple and fun
- ✓ Short turnaround to get course out to client base quickly

Services Utilized

- ✓ Articulate Rise 360 design
- ✓ Instructional design
- ✓ Content editing and rewriting
- ✓ Vyond animation videos
- ✓ Create comprehension checks
- ✓ Create graphics and infographics

Results

The Coronavirus mini-course was made available to corporate clients through the lawpilots.com website, as a free public service course. "How to Deal with Coronavirus" was made available in English and Dutch. The project resulted in a 5 star review from lawpilots for The URL Dr.
